

GERMAN DARIO CAÑON NIETO
System and Computational Engineer

PERSONAL PROFILE

I am a System and Computational Engineer. I am a serious and responsible person, I do well relationships to co-workers and I am able to work in team and also work alone if it is necessary. I know to resolve problems through the investigation about computer programming topic. My knowledges about programming languages are Php, JavaScript and specially Java.

About my technical skills, I know quiet of JEE, I have worked some projects in this technology with JSF (Java Server Faces) and PrimeFaces Framework. I have worked for website's front-end, but mostly for the back-end logic. I have used NetBeans and Eclipse tools for development of some applications. In different projects I have worked with Web Services and Api Rest. I worked these applications in Linux environments.

Also I Know about SQL to make any query in a data base. I have had the chace to work in severals SQL engines like Postgresql, MySql and Oracle. As a client of this engines I have managed some tools like WorkBench, PhpMyAdmin o PgAdmin.

For the other hand, I know about BPM (Business Process Management). I developed many applications in this technology through ProcessMaker platform.
